OPX-1 B

UNIVERSAL HERMETIC ENCLOSURE

OPX–1 is a hermetic surface–mounted enclosure designed for both indoor and outdoor use. It is manufactured using two–component injection moulding technology. The combination of high–quality polycarbonate, which gives the enclosure resistance to mechanical damage and UV radiation, and the sealing material makes the enclosure resistant to harsh weather conditions. An AXD–200 or XD–2 detector can be placed inside the OPX–1.

- dimensions: 29 × 157 × 28 mm
- IP65 rating
- tamper contact supporting **AXD–200** and **XD–2** detectors
- output for **FPX–1** flood probe
- key for opening the enclosure included

The enclosure is also available in two other colours: white (**OPX–1**) and grey (**OPX–1 GY**).
